🪪 Profile

Front-End Developer skilled in **React.js, Next.js, and modern JavaScript**, with experience in backend development using **Node.js, Express, and PHP/Laravel**. Capable of delivering responsive, fast-loading web applications and improving system performance. Strong problem-solver with a focus on clean code and scalable solutions.

🎨 Skills

Frontend
- HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, TypeScript, Redux, Tailwind CSS, Responsive & Accessible Design
- **Tools:** Git, GitHub, npm, Vite, Webpack, Babel
- **Other:** Performance Optimization (Lazy Loading, Code Splitting), Clean Code Practices

Backend & APIs
- Basic knowledge of **Node.js**, **Express.js**
- Comfortable working with **REST APIs**

Soft Skills
- Problem-solving through hands-on projects and coding challenges.
- Strong team collaboration & communication with designers and backend developers.
- High attention to detail with clean, maintainable code.
- Fast learner with continuous improvement mindset.

💼 Professional Experience

Freelance Front-End Developer   2024 – present

- Built and deployed custom SPAs and websites using **React.js, Next.js, and Tailwind CSS**.
- Improved client websites' SEO and performance, reducing load time by up to **30%**.
- Developed dashboards, admin panels, and CMS features for small businesses.
- Collaborated with designers and backend developers to deliver production-ready projects.

📂 Projects

Almokhtar Shipping Platform | PHP, Laravel   08/2025
Enhanced the user interface and optimized backend logic, reducing load time by **20%** and improving overall system responsiveness.

Point of Sale (POS) System | PHP, Laravel   06/2025
Enhanced UI/UX for sales and inventory modules, optimized performance for real-time operations, and ensured cross-browser compatibility for retail clients.

Prayer Times Web App | React.js, Tailwind CSS   12/2024
Built a responsive web app that fetches real-time prayer times via API and adapts UI dynamically based on user location and time.

Portfolio Website | React.js, Tailwind CSS 🔗   11/2024
Designed and deployed a mobile-first portfolio to showcase projects and skills, focusing on accessibility and fast-loading performance.

🎓 Education

Bachelor of Management Information Systems,   09/2020 – 05/2024 | Cairo, Egypt
Thebes Higher Institute, Cairo, Egypt
Focused on the intersection of business and technology, gaining a solid foundation in information systems, database management, and software development.

📜 Certificates

Web Development Challenger Track 🔗
Selected for the competitive Challenger Track by Udacity and ITIDA. Gained hands-on experience building responsive web pages using **HTML, CSS**, and **JavaScript**. Focused on practical front-end skills and best practices in user-centered design.

The Complete Node.js Course: RESTful Web Services with Node.js, Express & MongoDB
Mahara Tech, ITI – 2024
Comprehensive training in backend development with Node.js. Learned to build and deploy scalable RESTful APIs using **Express.js** and **MongoDB**, implement authentication, data validation, and handle secure routing and error handling.

📖 Courses

Pro Frontend Engineer ReactJS + TypeScript + Redux,   05/2025 – present
Udemy

React.js, *Mahara Tech, ITI*   01/2025 – 02/2025
Developed dynamic front-end applications using React.js, component-based architecture, hooks, and state management.

JavaScript Fundamentals, *Mahara Tech, ITI*   10/2024 – 12/2024
- Built a strong foundation in JavaScript, including ES6+, DOM manipulation, and asynchronous programming.

🌐 Languages

Arabic   **English**
Native   Conversational

🧠 Interests

problem-solving   **Exploring**
Actively engage in coding challenges to strengthen problem-solving skills   stay up-to-date with emerging web technologies

Learning
continuous learning through technical courses and developer communities
