Objective

Front-End Developer with strong experience in JavaScript, React.js, and Next.js, focused on building responsive, high-performance web applications with clean, scalable code. Delivers accessible, pixel-perfect user interfaces, optimize page load times, and integrates RESTful APIs efficiently. Adaptable and quick to learn new frameworks and technologies, thriving in agile, collaborative environments to deliver business-driven digital products.

Experience

Front-End Developer, Freelance

Oct 2024 – Present

- Built responsive web interfaces using React.js/ Next.js, improving UI consistency and enhancing user experience.
- Integrated RESTful APIs and optimized data fetching reduce loading time, enhancing overall performance.
- Created reusable components, keeping the code clean, scalable, and following best practices.
- Collaborated with clients to understand requirements and deliver features aligned with business needs.
- Performed small enhancements on PHP-based websites and bug fixes when needed.

Front-End Intern at AfaaqWare

Oct 2025 – Dec 2025

- Implemented UI features and enhanced layout responsiveness with Next.js, TailwindCSS, Shadcn UI, Zustand, and CSS3 by utilizing a component-based architecture.
 - Worked with designers and backend developers in agile sprints to deliver functional web modules.
 - Participated in code reviews and learned modern workflows, including Git and branch strategies.
 - Assisted in debugging, browser compatibility fixes, and performance improvements.
-

Education Qualification

Bachelor's degree from **Thebes Higher Institute**

Sep 2020 – May 2024

Studied **Management Information Systems**

Courses

Pro Frontend Engineer ReactJS + TypeScript + Redux, Udemy, Created by: Muhammad Naga

Introduction to MongoDB, ITI Mahara-Tech, Created by: Merihan Mohammed

Modern JavaScript: ES6 and beyond, ITI Mahara-Tech, Created by: Niveen Nasr El-Deen

JavaScript Fundamentals, ITI Mahara-Tech, Created by: Niveen Nasr El-Deen

Computer Network Fundamentals, ITI Mahara-Tech, Created by: Dr/Mohamad Adly

Projects

Restaura

(restaura-sage.vercel.app)

Developed a restaurant website using React.js and Tailwind CSS, ensuring it is mobile-friendly and has smooth transitions between pages and interactive animations through Framer Motion for an engaging user experience.

Maintenance Now

Collaborated within a cross-functional team to build a maintenance services web app using Next.js and Zustand, delivering 10+ reusable UI components and implementing service listings and request forms that reduced user task completion time by 25%.

Portfolio Website

(ahmed-mustafa-portfolio-delta.vercel.app)

Designed and deployed a **mobile-first portfolio website** showcasing **8+ projects**, optimized for accessibility and performance, achieving **90+ Lighthouse performance scores** and reducing initial load time by **35%**.

Prayer Times Web App

(prayer-times-steel.vercel.app)

Built a responsive web application that integrates a real-time **Prayer Times API**, dynamically adapting UI based on user location and time, serving accurate schedules for **multiple regions** with **99% uptime reliability**.

Hotel Reservation System

(hotel-reservation-task.vercel.app)

Developed a hotel booking web app using React.js and Redux Toolkit, enabling users to browse room types, manage reservations, and authenticate via protected routes; improved booking flow efficiency by 40% through optimized state management and UI performance.

Point of Sale (POS) System | PHP, Laravel

Enhanced UI/UX for sales and inventory modules, optimized real-time operations to reduce page response time by **30%**, and ensured **cross-browser compatibility** across **5+ major browsers** for retail clients.

Al Mokhtar Shipping Platform | PHP, Laravel

Improved **frontend UI/UX** and optimized client-side performance, reducing page load time by **20%** and enhancing overall application responsiveness, resulting in smoother daily shipment tracking and processing workflows

Technical Skills

Frontend Development

React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap

State Management

Redux Toolkit, Context API

API & Backend Integration

RESTful APIs, Axios, JSON, Node.js basics, Express basics, Authentication flows (JWT)

Performance & Optimization

SEO Basics, Code Splitting, Lazy Loading, Image Optimization, Caching Techniques

Language

Arabic – Native

English – B1
